PROFESSIONAL SUMMARY

AI and Machine Learning undergraduate skilled in Python, FastAPI, React.js, NLP, and Deep Learning. Experienced in developing AI-powered applications, mobile applications, and real-time systems through internships and academic projects. Strong problem-solving abilities with a passion for Software Development, Artificial Intelligence, and emerging technologies.

TECHNICAL SKILLS

Languages	Python, JavaScript, Java
Frontend	React.js, HTML5, CSS3
Backend / APIs	FastAPI, Node.js, REST APIs, JWT Authentication
Mobile Development	Android Studio, Flutter
AI / ML	NLP, Deep Learning, Generative AI
Databases	MongoDB, SQL
Tools	Git, GitHub, Postman

EDUCATION

B.E. in Artificial Intelligence & Machine Learning	Canara Engineering College, Mangalore	2023 – 2027	CGPA: 8.28
Pre-University (PUC) – PCMC	Padua Pre-University College, Mangalore	2021 – 2023	87.66%
SSLC	St. Antony High School, Mangalore	2020 – 2021	86.08%

EXPERIENCE

IBM SkillsBuild (AICTE) – AI Intern	Mar 2026 – Apr 2026
Python, Generative AI, NLP	
- Developed and evaluated AI applications using Python and IBM Watsonx for real-world business use cases. - Applied Generative AI and NLP techniques to design and build intelligent automation workflows.	

PROJECTS

CareerPath – AI Career Recommendation Platform Python, NLP, Machine Learning	Aug 2025 – Feb 2026
- Built an AI-powered career recommendation engine using NLP-based resume parsing and skill gap analysis. - Developed recommendation modules to provide personalized career paths and skill development suggestions. - Patent published for a novel methodology combining resume intelligence with career trajectory mapping.	
Digital Twin-Based Wildfire Detection & Prediction System Python, U-Net, Deep Learning	Mar 2026 – Present
- Developing a wildfire detection system using U-Net architecture trained on multi-spectral satellite imagery. - Integrating multi-source environmental data for real-time wildfire spread prediction and risk alerting.	
Whiteboard – Real-Time Collaborative Drawing App FastAPI, WebRTC, WebSockets, MongoDB	
- Engineered a multi-user collaborative drawing platform with real-time canvas synchronization via WebRTC. - Implemented JWT-based authentication and a scalable WebSocket backend for concurrent session management.	

AWARDS & ACHIEVEMENTS

- Patent** for *CareerPath – AI Career Recommendation Platform* (novel AI methodology).
- Winner – Forensic Analyser Award**, CYNEX CyberSiege CTF 2026 (24-hour national competition).
- Successfully completed the **IBM SkillsBuild AI Internship** Program under AICTE sponsorship.

CERTIFICATIONS & ACTIVITIES

Certifications : Generative AI Fundamentals | Git & GitHub

Events & Workshops: Core Unleashed 2026 – 36-hr Innovation Marathon | CyberSiege 2026 – 24-hr CTF | Udbhava 2025 National Tech Fest | IDEATHON 2025 | Flutter App Development Workshop
